## PECT HARD IAL DIGGERS ASK HIKE

Washington (AP)—John L. Lewis give some indication to what new work or pay it he wants for his 75,000 coal miners.

Representatives of Lewis' United Mine Workers and of the anthracite industry resume talks this noon on a new contract to replace an expiring Sept. 30.

Less a new agreement is reached by the end of this month, a call for a strike of his coal diggers, as well as 400,000 soft coal miners.

A UMW chief notified the industry more than a month ago he would end the existing contract within 30 days. He also said to clear the way legally for a strike by notifying the Federal Mediation and Conciliation Commission that the contract may expire.

This was to comply with provisions of the Taft-Hartley Act, which have been reported that plans to ask a boost in the rate of 30 cents per ton of coal his union collects for its health and welfare fund. The anthracite and bituminous workers are separate funds.

UMW representatives already have had some preliminary talks with anthracite operators in New York City and Wilkes-Barre.

Both sides said the initial antitrust talks had to do with technical problems including production, mine safety, mechanization, health, seniority and other matters.

He talks were resumed today 24 hours after most of the on's coal miners returned to work from a 10-day mourning period for victims of mine tragedies.

## ilitary Needs To gin Levelling Off on, Lovett Says

Washington (AP)—Secretary of Defense Lovett says military production will begin levelling off next July and the armed forces may cut their requests for money in the coming fiscal year.

Lovett said yesterday that by 1954—the 12 months beginning next July—the armed services will have enough of certain weapons, and their production would cut to a sustaining, or replacement level.

He did not say what these items might be. He said their continued manufacture would be adequate to keep production lines operating, however.

Lovett said he expects total requests for next year to be below the \$46,500,000,482 plus \$4 billion for public works that was voted for the defense effort in fiscal year.

However, he told a news conference that the Air Force—the only one of the services to estimate next year's needs so far—indicated it may need about the same amount it received this year.

## eadlocked Truce alks Will Resume

Munsan, Korea (AP)—The deadlocked Korean truce talks resume tomorrow, ending the fifth straight week-long recess.

The U. N. and Communist armistice delegations have met only once a week since July 26. A sixth session may be called tomorrow as the negotiators gather at Munsan at 11 a. m. (9 p. m. Wednesday, EST).

A major shift in the Red stand on the war prisoner exchange was needed before truce talks can make any progress.

Northern Gen. Nam Il, spokesman for the Red delegation, demands for the return of 118,000 Communist prisoners, including all 20,000 Chinese captives in Allied stocks.

Maj. Gen. William K. Harrison, spokesman on the U. N. truce team, offered to send back 33,000 prisoners including 6,400 Chinese. An exhaustive screening of Communist captives showed the remaining thousands of prisoners have been released.

## TUBELESS TIRE

Akron, O. (AP)—A new tubeless tire for aircraft, based on principles of the tubeless tire introduced for passenger cars, is getting tests. B. F. Goodrich Co., has announced. The first of the tubeless tires will be used on combat aircraft, the firm said yesterday. Similar tires for use in automobiles were introduced five years ago.

## Ike Booming Across Dixie As Adlai Works on Farm Speech; Big Crowds Greet Candidates

Miami, Fla. (AP)—Dwight D. Eisenhower's sweep across Dixie was booming in such spectacular fashion today that it posed the question of just how solid the Democratic South will be in the November election.

The GOP presidential nominee was drawing huge crowds at every stop along his campaign route. But none could say whether it was due to personal charm or political appeal—or a combination of the two.

About 150,000 persons turned out to greet Eisenhower yesterday in Atlanta, Ga., Jacksonville, Fla., and here in Miami.

There were prospects of more big turnouts today in Tampa, Fla., Birmingham, Ala., and Little Rock, Ark.—the last stops on his two-day, 3,400-mile journey from New York through the South.

The thousands who heard Eisenhower speak burst into cheers and rebel yells when he accused the Truman administration of trying to cover up a "mess" of crime and corruption.

They applauded heavily when he said it wasn't enough to "change a face or two" in the administration and that "No change of goods in the showcase can make the rotten goods back in the warehouse any better."

And the harder he whiplashed the democratic leadership in Washington, the better his listeners seemed to like it, if their applause was any measure.

## Potter Co. Airport Operator Is Facing Charge of Slaying Student and Shooting Another

Coudersport (AP)—A 35-year-old airport operator was under arrest here today charged with the shotgun slaying of a college student from Philadelphia's Main Line section and wounding the son of Grover Cleveland Bergdoll.

A formal murder charge was filed last yesterday against Alfred L. Salade, who operates a small airport at Cherry Springs State Park, some 18 miles east of here.

The victim of the fatal shooting was Charles P. Van Pelt, 19, only child of a socially prominent family, and a sophomore at Harvard University. His family's home is at Rosemont, Montgomery County, just outside Philadelphia.

Erwin Bergdoll, also 19, and a University of Pennsylvania student, was seriously wounded at the same time. He was reported in "fair" condition at Coudersport Hospital.

Young Bergdoll is the son of Grover C. Bergdoll, famed auto racer who was convicted as a draft dodger in World War I.

Potter County Dist. Atty. Robert L. Flint said Salade shot the two youths as they walked near the airport administration building Monday night.

Flint said Salade told him he thought the youths were robbers who had ransacked his office twice in the past two weeks.

Van Pelt and Bergdoll were on a camping trip in this wooded, hilly countryside of north-central Pennsylvania. With them were two other college students and the father of one of the boys.

Flint said all four boys were walking near the airport building looking for a place to camp out in the open for the night when the shooting occurred.

The district attorney said Salade fired through a window when the youths were within 20 feet. He said it was the same window used (Turn to Page Seven)

## FIRE AT BUTLER

Butler (AP)—The Armco Steel Corp. plant in South Butler returned to full production today following a \$30,000 fire in the timing installation of a new cable, wiring and control panels allowed workers to return to their jobs.

Electrical equipment was burned out by the blaze which was fought by five fire companies for three hours yesterday. The plant employs 3,700.

## Miss Pennsylvania Determined To Be First Contestant To Play Huge Organ

Atlantic City, N. J. (AP)—Fifty-two Miss America beauties take over center stage tonight after playing wallflower roles to bosomy, blonde screen star Marilyn Monroe yesterday.

The pretty pretenders to the coveted crown compete for all-important points in the preliminary beauty and talent contests in Convention Hall.

A third will appear in evening gowns, a third in bathing suits and the rest will show the judges they can do more than look lovely by singing, acting or dancing.

Atlantic City, N. J. (AP)—Miss Pennsylvania has laughed off the advice of well-wishers who wonder if she is big enough to tackle Convention Hall's enormous organ in talent competition for the Miss America Pageant.

She is determined to follow through with plans to play the big instrument, considered by some standards to be the largest in the world.

She will be the first pageant contestant to play the organ in Miss America competition.

Pretty Miss Miriam May Smith, of McAllisterville, smilingly reported that even an elevator boy in her hotel had advised the big musical instrument might be too much for her. She added several people have also expressed similar doubts to her sister, Mrs. Harold R. Parker Jr., of Little Rock, Ark., who is her official chaperone.

Miriam said she is now scheduled to practice on Thursday and Friday before her talent competition Friday night. In addition she planned to study the complicated console while it is being played by Lois Miller, regular organist for Convention Hall.

Miriam reported she had been "thrilled" to represent Pennsylvania in the Boardwalk parade yesterday when more than 150,000 pageant fans jammed the famous wooden promenade to cheer the 52 pageant contestants.

## STORM QUIETS ACTIVITIES ON BATTLEFRONT

Seoul, Korea (AP)—A tropical storm grounded U. N. warplanes today and lashed infantrymen on the Korean battlefield with up to 3½ inches of rain.

U. S. Fifth Air Force headquarters reported only weather reconnaissance planes took off.

Allied fighter-bombers bombed an airfield yesterday near Sinanju which the Fifth Air Force said the Communists were rebuilding. The Sinanju field lies about 155 miles north of the Western Front and would give Red jet pilots a base within range of the front.

Pilots reported 70 direct bomb hits on the runway. They did not see any Red planes, the Air Force added.

The storm battered Seoul during the night as it moved northward. An Army weather officer said wind gusts reached a velocity of about 69 miles an hour.

A U. S. Eighth Army staff officer said Communist probes and patrols have increased across the front the past two days. He said the Reds probed 13 times across the front at Bunker Hill, Old Baldy Hill, the Pukhan River, Heartbreak Ridge and the Punchbowl.

None of the Red probes developed into more than brief skirmishes.

## WADES INTO NIAGARA THEN SHOTS SELF

Niagara Falls, N. Y. (AP)—A body recovered from the Lower Niagara River has been tentatively identified as that of Sidney Seth, 57, believed to be the man who waded into the river above the falls Saturday and shot himself in the head.

The body was recovered last night near the Maid of the Mist dock.

Jesse Kunes of North Tonawanda reported to police Saturday that he saw a man wade into the river and shoot himself, and that the body was carried over the American Falls.

Police recovered the rifle and learned that the gun had been sold to an S. Seth's shortly before Kunes reported seeing a man shoot himself.

## HULL BETTER

Washington (AP)—The Naval Medical Center reported today that Cordell Hull is showing improvement but that his condition continues to be serious.

The 80-year-old former secretary of state was taken to the Naval Hospital at Bethesda, Md., last Friday for treatment of a coronary thrombosis.

## Seek Reopening Of Loyalty Oath Case

State College (AP)—A committee of five faculty members met with Dr. Milton S. Eisenhower today to ask the Pennsylvania State College president to reopen the case of Wendell Scott MacRae, dismissed in a loyalty oath case.

Dr. Eisenhower agreed to the meeting last Friday after a preliminary meeting of college employees and townspeople interested in "finding out the facts" in the case of MacRae.

MacRae was fired last week as publications production manager for the college's Department of Information when a college board of review reported it lacked essential evidence to certify him as "not subversive" under the state's Loyalty Oath Law.

The group which had grown to 150 by last night met again and passed unanimously a series of resolutions charging that MacRae "has been done an injustice."

At Ford City, State Sen. Albert R. Pechan R.—Armstrong issued a statement declaring he "cannot pass judgment" in the MacRae case "because I do not know the facts."

## Former County Resident Killed In Truck Accident In Cleveland

BACK TO THEIR STUDY OF THE THREE R's went Warren's small fry today as evidenced by this scene at the South street entrance of South Street school as the doors opened this morning after the long summer vacation. At the same time, all other borough schools opened for the first day of the Fall term. Custodian Fred Watt had just thrown open the side door of South Street school when the above picture was taken.

## Truman Is Looking Eagerly to Next Whistle Stop Tour

Washington (AP)—President Truman looked forward eagerly today to his next "whistle stop" tour after his first strenuous, nine-speech, two-day stumping trip for Adlai Stevenson, whom he called a "wonderful candidate."

So enthusiastic was the President over his reception at rear platform talks in West Virginia yesterday that he assured crowds he is already thinking of campaigning for the Democrats again in 1956.

Truman's scheduled dedication of the Hungry Horse Dam in Western Montana Oct. 1 likely will turn into another, longer "give 'em hell" tour of the interior by train. And he is ready to keep his special train running after that right up until election time.

Truman opened up on Gen. Dwight D. Eisenhower, the Republican presidential nominee. At Milwaukee he called him the "lonely, captive candidate" of GOP "special interests."

And at Parkersburg, W. Va., yesterday he called him a "spokesman for selfish politicians" willing to risk atomic war with Russia by loose talk about liberating the enslaved peoples of Eastern Europe.

While he said he thought foreign policy should be kept out of the political campaign, Truman challenged the GOP to make it an issue.

## Caudle Opens Eyes Of Investigators

Washington (AP)—T. Lamar Caudle proved to be such an interesting witness at a closed-door hearing yesterday that a House investigating committee chairman remarked after it was over that his group "has a lot more work than we thought we had."

"We've got a terrific September ahead of us," added Rep. Chelf (D-Ky.) after listening to Caudle for more than five hours. Then he expressed doubt his judiciary subcommittee, which has been investigating the Justice Department, will be able to finish its work by Oct. 1 as planned.

Caudle, who was the government's chief tax prosecutor until President Truman fired him from his job as assistant attorney general last November, provided some information that was brand new to them, Chelf said.

## Warren School Teachers Are Welcomed At Beatty Meeting

"The impact of the teachers of Warren as they help to develop citizenship in the young people of this area is immeasurable," said Superintendent of Schools Carl E. Whipple in welcoming Warren teachers during a meeting at Beatty Junior High school, Tuesday afternoon.

Supt. Whipple stated that he considers this first meeting one of the most important of the school year.

Putting it on the basis of a challenge to the entire staff and himself, he went on to say that, "the moral, social, and physical development of students during the year is the greatest growth which takes place in the community."

Supt. Whipple credited the janitors for the fine job they had done during the vacation months in getting the buildings in condition and asked the teachers to see that the boys and girls cooperate in keeping them clean and without marks.

Looking ahead to next year, Supt. Whipple stated to the teachers that the school board has decided to continue operation of South Street building for kindergarten, first, second and third grades, even though the Jefferson building will be ready. He explained the feeling of parents not wanting their children to go long distances to elementary school. "They are willing to cooperate with us while the new school building is being finished; be sure that we show the same spirit of cooperativeness in helping them," he said.

According to the superintendent, the new building should be ready for the next fall term. The steel is here for the first floor and building stone is promised next week.

Supt. Whipple spoke concerning a consolidation for grades seven through 12, which is currently being gone over by nine boards sending tuition students to Beatty and the high school. At the present these boards are trying to draw up a satisfactory jointure agreement. If they are able to do this and the boards agree to it, Warren should have a jointure for the junior and senior high schools, beginning in July of next year.

## ONE DEAD, 18 HURT IN OIL EXPLOSION

Philadelphia (AP)—One man was killed and 18 others injured, four of them seriously, when a 1,000-gallon vat of boiling oil exploded yesterday at a linoleum plant.

The explosion occurred after a fire broke out in an oil-boiling vat used in processes at the Sloane-Blahon Linoleum Corp. The plant's fire fighting department had the fire nearly under control when a second vat exploded, showering hot oil over the fire fighters and broken glass over workers in a nearby yard.

City firemen were called into action and soon brought the blaze under control.

## Instructor Expected to Arrive Sunday Under the Exchange Teacher Program

The Warren Public School System will have the privilege for the 1952-53 school term of having Josef Wolf of Gunzburg, Germany, as an exchange teacher, replacing Edward Zulak in the local high school. Mr. Zulak is serving in a similar capacity in Germany this year.

Wolf, who is expected to arrive in Warren Sunday, will come here under the exchange teachers program, conducted by the Federal Security Agency. The Agency recommends him very highly and considers him well qualified for the assignment.

As a resident of Gunzburg, Germany, Mr. Wolf has been teaching German, English, history and social studies at the "Gymnasium Mit Oberrhealschule" and has also demonstrated keen interest in youth work.

Wolf was scheduled to arrive in the United States September 2 and was to go to Washington, D. C., from there for brief orientation. He should be ready to take up his role in the high school on Monday.

A letter from Mr. Wolf stated his hopes of meeting Mr. Zulak in Frankfurt, Germany, before he left that country.

## SERVICES FOR VICTIM TO BE IN SHEFFIELD

The body of William F. Snyder, 31 years old, former Sheffield resident and veteran of World War II, who died in a Cleveland hospital early Tuesday morning as a result of injuries received the night before when he was struck by a truck on a Cleveland street, will be brought to Sheffield Thursday evening for removal to the Borden Funeral Home. Friends will be received there at the regular calling hours, beginning at 9:00 a. m. Friday, and services will be held at the funeral home at 2:00 p. m. Saturday. The Rev. Grant L. Mottern, pastor of Sheffield Methodist church, will conduct the rites and the military honors at the graveside in Sheffield cemetery will be in charge of the Nicholas and Michael Peroski Post No. 8755, Veterans of Foreign Wars, of Sheffield.

Few details of the accident have been learned by relatives here, beyond the fact that the operator of the truck is being held by police until an inquest will be held tomorrow.

## Grand Jury Probing World Oil Market

Washington (AP)—A federal grand jury seeking evidence of an alleged international oil monopoly assembled today to start sifting through the records of major petroleum operators.

The grand jury inquiry was organized at the request of Atty. Gen. James P. McGranery, who said a Justice Department investigation of more than a year indicated that seven large companies dominated the world oil market.

McGranery named Leonard Emmergluck, a top Anti-Trust Division attorney, to head a special Justice Department staff to present the case before a jury here. Emmergluck is best known for his successful prosecution of the Aluminum Corporation of America several years ago on anti-trust charges.

The government has subpoenaed the records of 21 large oil companies for grand jury examination.

Young Snyder, who attended Sheffield schools, enlisted in the U. S. Navy at Buffalo, N. Y., in October, 1940, and received his honorable discharge at Philadelphia in 1946. He received the Purple Heart while serving as boatswain's mate second class aboard the battleship USS Maryland, for wounds received in action at Pearl Harbor, and, later, shared with others in a Presidential Citation awarded the Douglas Fox when it was struck by a suicide plane off Okinawa. He also saw service with the off-shore battery in Iwo Jima action.

After his return from service he went to Cleveland, where he had been employed for the past six years as a die-maker in a steel mill.

Surviving are his wife, Alice; two brothers and three sisters: Vera, James and Mary Lou Snyder, Kinzie; Mrs. Margaret Norman, Euclid, O., and Russell Snyder, in Cleveland.

## Rent Control Scheduled To Come Before Council Monday

It was predicted today that rent control, tabled by Borough Council at its August meeting, will be reconsidered at the September meeting, Monday night. What action will be taken, if any, Borough Manager C. W. Barwis was unable to predict today.

Rent control will expire on September 30 unless Borough Council, as Warren's governing body, votes to continue it in force. In so doing, Council must decide that there is a local need for rent control because housing is inadequate. At the August meeting, several members declared themselves unwilling to say that a continuation of rent control here is necessary.

Reports in regard to Warren's new Planning Commission, which will have zoning powers, and the new Recreation Board will be made at Monday's meeting.

Whether one or both bodies will be appointed is not certain. It is known that several members for each have been decided upon, but they have not been interviewed regarding their willingness to serve.

There is sure to be discussion in regard to the proposed fluoridation of Warren's water supply "and this might take all evening," according to Mr. Barwis, who, however, was inclined to predict the session will be brief.

Bids will be opened for black-topping additional parking space in back of the Municipal Building, and there will be a report of street lighting progress made. Whether there will be a report from the Warren Parking Authority is unknown, none such having been submitted at the Borough Manager's office this afternoon.

## Southwest Closes Schools; One Will Be Community Hall

The remaining grade schools in Southwest Township have been closed, school board members said yesterday as they announced the new bus routes.

The last two were those at Hunter and Enterprise. The Hunter school will probably be sold, but plans are underway to convert the Enterprise school into a community hall.

About 130 students were transported from the township on Wednesday morning. All are scheduled for Pleasantville except the 11th and 12th graders, who are finishing up at Titusville.

Bus stop signs have been ordered and the supports are up, but the signs have not yet arrived. When they do come they will be placed immediately.

Mrs. Mary Luke, board secretary, said the following bus routes are temporary until it is seen how the time limits work out. The children who walked to the Enterprise school last year are requested to walk there again this year.

monies will be held in connection

tion with the Sunday ceremonies,

attendance making an official vis-  
it, and members from nine posts.

and Mrs. Wayne Whitton, of Shef-

**PLANE GROUNDED**  
Fouled spark plugs caused the  
grounding of an All-American Air-  
ways, Inc., passenger plane at the  
Chesapeake Airport at Frank-  
lin Sunday night after it  
had been in the air only 10 min-  
utes. Bound from Buffalo, N. Y.,  
to Pittsburgh, the plane had taken  
off from the Franklin airport on  
its scheduled flight early Sunday  
evening when it was forced to re-  
turn because of motor trouble. An-  
other plane was brought to  
Franklin from Pittsburgh to which

**BAFFLING INCIDENT**  
Corry Journal: A car traveling  
east on Route 6 . . . a woman  
screaming with her head out the  
window and threatening to jump  
. . . a man behind the wheel  
with a fist clenched tightly in the  
woman's hair, restraining her.  
These facts, which were turned  
over to city police Saturday, left  
them puzzled. Officers first re-  
ceived a report by telephone that  
a woman was attempting to jump  
from a moving car. Later they  
learned that Joseph DeMarte of  
Corry had followed a car, a 1937  
Dodge sedan bearing license num-  
ber 6935-Z, eastward as far as  
Columbus, while the woman bat-  
tled with the driver. State Police  
at both the local sub-station and  
at Warren were notified but no  
further reports were heard of the  
sedan and its two occupants. Of-  
ficers were unsuccessful in tracing  
ownership of the auto through  
registration files since the license  
plate number has not been re-  
ceived in the listings made  
available to police.

YOUR FOREST RANGER

L. E. Stolz

In attempting to apply the science of forestry to the woodlands of America, early foresters, such as Pinchot, Fernow and others at the turn of the century, had to rely almost entirely upon experience and training received in Europe.

It soon became apparent that European methods were not applicable to conditions found in the diversified forests of America, and so through trial and error American foresters had to develop their own techniques.

Now that more and more forest land is being properly managed for perpetual crops of timber and more reliance is being placed upon second growth stands for our future timber supply a comparison of forestry in Europe with that in America today should be of interest.

In order to obtain first hand knowledge of forest practices and special techniques in those European countries where forestry has been practiced intensively for several centuries a group of American foresters recently visited the forests of Sweden, Germany, France and Denmark. Some of their findings are of value in American forestry, but for the most part economic conditions here still will not support the intensive type of forestry practiced in those countries. As our country becomes more and more densely populated more intensive management of our forests will be necessary and possible, and at a handsome profit.

Some of the findings of the visiting American foresters are:

In Europe most forests are planted, and reforestation costs as high as \$200 an acre in extreme cases compared to \$30 to \$40 in the U. S. However, we are satisfied with planting approximately 800 trees while the European forester plants from 8,000 to 10,000 seedlings to the acre. These densely stocked artificial forests are then thinned at short intervals from an early age until the final crop trees are those of the best form and most rapid growth. The ready market in Europe for the thinnings does not yet exist in the U. S.

A ranger in Denmark or Sweden may have as small a forest unit as 1,000 acres to intensively manage or as much as 22,500 acres. Compare this with ranger districts on national forests in the U. S. where 300,000 acres is an average district and some are more than half a million acres.

Some of the intensively managed forests in Europe have annual net earnings of between \$5.50 and \$20.00 per acre. One reason for such high returns is that the forest manager in Europe, who is able to cultivate his small forest like a carefully tended garden, does not have to compete with forest industries engaged in clear cutting and liquidating forest resources as is too often the case in America. Then there is always

a ready market for all types of round timber, even of small size, from thinnings.

Another interesting thing these American foresters observed was the attitude of the European forester toward hunting by the masses. Hunting over there is not the democratic sport which everyone in this country takes for granted is their national heritage. It is reserved for the elite. In Germany a hunter has to pass an exami-

nation to get a hunting license, and he also has to carry public liability insurance.

No attempt is made by foresters in Europe to provide a good habitat for game or otherwise build up the game population to meet public hunting demands. They often fence off timbered areas from game to prevent damage to the trees. In Germany, as a substitute for fencing, they dip their planting stock in a game repellent solution.

Tree breeding is at an advanced stage in Denmark with particular emphasis on grafting methods. They are also working on hybrid

Thousands of times a day...

On street corners, in clubs, hotels, restaurants, elevators, stores, wherever friend meets friend... "I'll give you a call" is a remark that's heard thousands of times a day.

It's never "If you have a telephone, I'll give you a call." It's almost always "I'll give you a call." It's as simple, as natural, as direct as that.

And why not? The telephone is so much a part of everyone's daily life and habits that we don't give it a second thought.

"I'll give you a call."

This speaks volumes for the thousands of men and women whose skill, loyalty and experience are dedicated to providing telephone service so good that you can take it for granted.

## 25th Anniversary Of The Harry Bergstroms

Lander—Mr. and Mrs. Harry Bergstrom celebrated their silver wedding anniversary at their home with a gathering of 40 relatives and friends from Warren, Jamestown, Falconer and Lander. The affair was given by their three sons, Roderick, of New Holland, Pa.; Jack and Marvin, at home.

Mrs. Walter J. Shanshala

All in white, with nylon gown and an orchid topping her prayer book, Madeline Eagan, daughter of Mrs. Mary Eagan, 834 Eagan Place, became the bride of Walter J. Shanshala, son of Mr. and Mrs. John Shanshala, 20 Locust street, in a late summer ceremony performed in St. Joseph's church.

Father Arthur Leon read the double ring service and celebrated the nuptial mass at 10:00 a. m. Saturday, August 30. The floral setting was provided by yellow glads placed at either side of the altars. For the wedding music, Mrs. Donald Edinger was at the organ and Ned Salerno sang "Ave Maria," "O Lord, I Am Not Worthy" and "On This Day, O Beautiful Mother."

Escorted and given in marriage by her brother, James Eagan, the bride chose a gown styled with fitted bodice buttoned up the front to a mandarin collar, long, pointed sleeves, and full skirt falling into a train. A headpiece of matching nylon, with lace-daisy trim, held her fingertip veil of nylon.

• Mrs. Ellen Carr, as her sister's matron of honor, wore orchid nylon lace over taffeta and a heart-shaped headpiece of matching net. Her arm bouquet was of pink and white carnations. A sister-in-law, Mrs. Kathleen Eagan, was the bridesmaid. Similarly gowned in powder blue, her headband was of the same shade and her bouquet was of yellow and white carnations.

Baskets of white glads and candles holding white tapers decorated Emanuel Evangelical and Reformed church Thursday evening, August 28, for the wedding of Marjorie Ann, daughter of Mr. and Mrs. Fred Streich, 7 Marion street, and James Herbert, son of Mrs. Ellen Schumann, Warren RD 1.

The Rev. John A. Borger read the single ring ceremony at 7:30 p. m., with Eleanor Swanson at the organ for the bridal music.

Given in marriage by her father, the bride wore a floor length, sleeveless gown with satin cowl neckline in a lace bodice and satin skirt with nylon net overskirt. Mitts were of matching satin and a lace skull cap held her fingertip veil. A white orchid centered her bouquet of mums.

Her only attendant was her sister, Barbara of Cleveland, O., wearing nylon net over yellow taffeta, with yellow ribbon headband, and a colonial bouquet of dark red glads.

Richard Morrison was best man for his brother-in-law and ushers were Edwin L. Streich, brother of the bride, and Earl Young, another brother-in-law of the bridegroom.

Wearing black accessories and yellow rose corsages, Mrs. Streich was gowned in pink lace and Mrs. Schumann chose blue crepe.

Sixty guests were invited for the reception which followed in the church parlors, where bouquets of colorful glads were used in decoration and the oblong-shaped four-tier wedding cake was topped with fresh flowers. Serving the cake were the bridegroom's three sisters, Mrs. Richard Morrison, Mrs. John Sudul and Mrs. Earl Young, while the bride's sister and sister-in-law, Katherine Streich and Mrs. Edwin Streich, poured.

Avoid the Dour Friend  
Sowing Seeds of Discontent

**SHE'S** a dangerous woman if: She always leaves you feeling vaguely dissatisfied with your life in life. She subtly undermines your confidence in yourself and in your own decisions with such doubting phrases as: "I hope you haven't made a mistake, but ..." and "I know it's none of my business, but if I were you ..."

She encourages you to air your grievances against your husband, for it is her firm conviction that men have everything their own way and women have to work overtime in order to outsmart them.

She brings you all the latest gossip about mutual friends, the kind they wouldn't appreciate having spread around.

She is always encouraging you to want, and try to get, things that are beyond your means. That makes her really a menace if you shop together.

**HER SELFISHNESS IS REALLY HINDRANCE**

**SHE** is fond of telling her friends things for "their own good" which are invariably things they would just as soon not know.

She is quick to find the flaw in anything you do or have.

You discover that the things you tell her in confidence have a way of getting around.

She is always complaining about something.

If any of these descriptions fit her, she is a dangerous woman for a friend. For she gets her pleasure out of tearing people down, instead of building them up. And, even though she calls herself your friend, she is really dangerous.

RELIEF EXPENDITURES

According to a bulletin just issued by the Department of Public Assistance, Pennsylvania has one of the highest per-capita incomes of all states in the Union, but its expenditures for public assistance stand 39th among the 48 states. The rate of expenditure in Pennsylvania is one-third below the national average, representing 0.6% of Pennsylvania's per capita income while the national average is 1.0%. Warren county lists 224 cases which includes 291 persons dependent on public assistance. Of these 195 are recipients of old age and blind pensions.

FAMILY FOOD BILL

Any recent increase in the family food bill—now at a record high level—cannot be blamed on farmers, Agriculture Department officials said today. These officials cited a department report issued last week which showed that the general level of prices paid farmers in mid-August was unchanged from mid-July. In fact, farm prices have gone up only 1 per cent during the past year. Officials also pointed out that while retail food prices have been reported by the Bureau of Labor Statistics to be at an all-time high, prices received by farmers are at about 6 per cent below the peak reached in February of last year.

## Stagg, 90, Laughs as Gridiron Candidates Knock Him Down In Practice at Susquehanna

Selinsgrove, Pa. *P.*—The largest opening day turnout in years greeted Amos Alonzo Stagg, the "grand old man of football" as he started his sixth year of duties at little Susquehanna University.

More than a score of football aspirants pranced around the practice field yesterday and hurled and kicked the old pigskin for America's dean of football coaches.

Some of the lads were so enthusiastic that their running took them off the limits of the practice field and they knocked over their 90-year old mentor.

But Stagg, spry and chipper as a college freshman, merely surveyed a torn shirt sleeve and related how he had invented the tackling dummy back in 1889, adding:

"Now I've become the dummy."

Stagg, in his 63rd year as coach, gained his principal fame with his great teams at Chicago and the College of the Pacific. In these more recent years he has been assisting his son Amos Alonzo Jr., in handling Susquehanna.

"The boys love him and his enthusiasm is reflected in their play," beamed Stagg Jr.

The elder Stagg and his wife, Stella, who still helps him chart plays, arrived here Monday night after a three-day trip from their Stockton, Calif., home.

"It takes more than a little train to tire me," the veteran coach commented.

Last year Susquehanna went through its six-game season undefeated.

"It's unlikely that we'll have another this year but that's worrying us," Stagg declared. "It's playing the game that's important not winning."

The Staggs will celebrate their 48th wedding anniversary on Sept. 10—if they remember it. Last year, like many in the past, they completely forgot about it in the excitement of football practice.

## Through The Wind Tunnel

Elk township, we discovered Tuesday afternoon, has more than one reason for breaking into print. One of its longtime residents bakes mighty fine apple pie. She refuses to let us use her name, claiming her sister in Pine Grove township, whose name actually is Abigail, "has just been waiting for a chance to write something for the Wind Tunnel."

The Abel's of Abel's Acre, Jackson Run road, have a surer. Yes, sirree. In putting it into shape, Pop Abel may be taking a cue from Noah. The fall rains are almost at hand.

And now, because he gets around faster to more places, we turn you over to Allen Anderson to complete today's vigil:

Val and Jeannine have that first floor apartment looking "miley" sharp now that they have installed those attractive new red drapes.

Stopped to do a little dreaming the other afternoon and let our self wander over to New York City, where we felt fortunate in catching drift of a new romance blossoming in a certain advertising office. It seems that one of our young ladies from town is hitching her wagon to a star . . . a guy named Mike.

A large crowd is expected to be on hand at State Hospital field this evening for the first playoff game between Guffre's Grocery and Thomas Coupling for the Industrial League championship. That is, if it isn't raining at that hour.

Marlin-Rockwell will play the last game of the season at the State Hospital diamond next Saturday against Jamestown Steel Partitions.

## Standings

Mr. Richard just wanted us to mention that "Aggie" and Barb are a couple of swell kids.

Happened into the lounge of the student dorm at the State Hospital last evening and while waiting there a male receptionist looked at us for a while and suddenly handed us "The Occasional," hospital paper edited by Joe Gardner, and said, "This is yours." The title of the first page article was, "Danger Signals of a Mental Crackup." Don't know whether he was joking, but seriously, it was a good article.

A Labor Day experience brought us to the conclusion that some girls were celebrating the day like they would the Fourth of July (Independence Day).

Placing second in the tourney with a 67 were Mr. and Mrs. Richard Costley, while Dick Krapfel and Carol Kirberger took third place honors with a 68. Mr. and Mrs. Bob Walsh and Wendall Lawson and Mrs. P. J. Juliano tied for fourth with 69's, and tied with 71's for sixth prize were Mr. and Mrs. Henry Marymont and Mr. and Mrs. H. Culbertson.

## Pittsburgh Exercises Options on Eleven Promising Rookies

Pittsburgh *P.*—The Pittsburgh Pirates don't intend to let any of their promising farmhands get away from them. Options have been exercised on 11.

General Manager Branch Rickey said yesterday all will report to the Pirates next year for spring training but added it's doubtful any will serve with the Bucs this season.

Selected from Hollywood of the Pacific Coast League were Paul Pettit, \$100,000 bonus pitcher, and pitchers Paul LaPalme and Joe Muir and catcher Jim Mangan. The others:

Outfielder Frank Thomas, infielder Dick Smith, pitchers Len Yochim and Ed Wolfe, from New Orleans of the Southern Association; outfielder Bobby Del Greco, pitcher Harry Fisher, from Toronto of the International League; pitcher Don Carlsen, from Denver of the Western League.

## Thrills and Chills At Bradford-M'Kean Airport Next Sunday

Thrills—chills and excitement will be in store for locals Sunday afternoon September 7th when the American Legion sponsors the National Air Show at the Bradford-M'Kean Airport starting time has been set for 2 p. m.

An outstanding feature of the show is steel-nerved Red Grant, sensational dare-devil stunt man and parachute jumper who will ride the top-wing of Major Richard Boyd McPherson's powerful stunt plane in a series of smoke trailing loops, barrel rolls and upside down flight at 200 miles an hour.

This and other hair-raising features will highlight the two hour performance of "Planes Gone Crazy" American Legion air show officials said today.

Other noted stunt "champions" taking part in the program include Captain Rod Jocelyn, 1950-'51-'52 International precision aerobatic-stunt flying champion. Captain Jocelyn won his coveted title at the Miami, Florida All-American Air Races each year. He is the only pilot to win the crown three times. Flying a sleek red and cream 200 Great Lakes Special the stunt champion sends his sky mount into 47 stunts in 10 minutes.

Outstanding maneuvers accomplished by Captain Jocelyn is the famed new "Cobra Roll" a snakey square outside loop with a half snap roll at each corner. Most of his maneuvers are flown on the outside, where the plane is up-side down.

Dave Binns, America's No. 1 flying clown pilot will bring his old 1910 Curtiss pusher plane in for the Sunday afternoon sky show. Binns pilots the old timer in low and slow comedy-batics in a thrilling fashion that has brought millions to their feet with "oh's and ah's."

Describing the action and the color of the two-hour flying spectacle will be Bill (Bill-Bweet) Sweet of Columbus, Ohio dean of aviation sporting event announcers. Sweet has announced the Cleveland, National Air Races and the Indianapolis 500 mile auto race for years. He is the (Bill-Bweet) in Zack Mosley's comic strip "Smilin' Jack."

## DR. AND MRS. YERG WIN MIXED FOURSOME

Dr. and Mrs. Follmer Yerg scored a net of 66 to win the Mixed Two-Ball Foursome in the men's invitational tournament at the Conewango Valley Country Club on Labor Day.

Placing second in the tourney with a 67 were Mr. and Mrs. Richard Costley, while Dick Krapfel and Carol Kirberger took third place honors with a 68. Mr. and Mrs. Bob Walsh and Wendall Lawson and Mrs. P. J. Juliano tied for fourth with 69's, and tied with 71's for sixth prize were Mr. and Mrs. Henry Marymont and Mr. and Mrs. H. Culbertson.

## Two Triumphs Put Yankees 3½ Games Ahead of Indians

By JOE REICHLER  
Sports Writer

The New York Yankees received a quick dividend on their \$40,000 investment in Ewell Blackwell. Five days after the purchase of the former Cincinnati Reds, the Yankees last night sent Blackwell to the mound against the Boston Red Sox. The long, lean right-hander responded with a scoreless five-inning performance to rack up his first American League triumph.

The Yankees ganged up on Boston starter Sid Hudson to win the nightcap, 4-0, after rookie Tommy Gorman had hurled on eight-hit 5-0 shutout over the Red Sox in the afternoon portion of the day-night doubleheader.

The two triumphs put the Yankees' winning streak to five and increased their first-place margin over the idle Cleveland Indians to 3½ games.

Brooklyn's Dodgers, the National League leaders, dropped a pair to Philadelphia's Phillies, 8-2 and 9-3, and were lucky to get out of the City of Brotherly Love in one piece. Two of the Philadelphia rights plus splendid pitching by right-hander Robin Roberts and Karl Drews cut the Dodgers' first-place lead over the idle New York Giants to eight games.

Chicago's White Sox climbed to fourth place, vanquishing the Detroit Tigers twice, 6-5 and 7-4. Washington's Senators, although held to three hits in each game, won both ends of a two-night twin bill from Philadelphia, 3-2 in 10 innings and 5-0, to dump the Athletics into fifth place, only a half game in front of the Nats.

Mike Forniello, 20-year-old Cuban right-hander, pitched a one-hit shutout in his major league debut for Washington. A second-inning single by catcher Joe Astroth prevented the youngster from becoming the first pitcher in modern times to pitch a no-hitter in his first big league game.

## Record for Ramp Jump Almost Tied

Battling his way up from a rear position, Emory Mahan of Warren and his Buick "8-Ball" received the checkered flag first and \$100 prize money in the feature attraction at the Dicky Ben Speedway Labor Day. Mahan was one of seven contestants in a field of 14 that finished the race.

Jamestown's Ken Johnson took a second in the big race driving his '33 Hudson and Babe Glocker of Akeley, in his "132" was flagged third.

In the special ramp jump event during the afternoon, Max Servis came within two-and-one-half feet of tying the world's record of 137 feet. Servis' jump was 134½.

Other results were:  
First heat—Glocker, first; Leonard Briggs of Sugar Grove, second; Second heat—Gus Nelson of Bradford, first; K. Johnson, second; First match—Glocker, first; Vern Smith of Warren, second; Second match—K. Johnson, first; Paul Boyland of Brockton, N. Y., second; First consolation—Emory Mahan, first; Gerry Littlefield of Warren, second; Second consolation—G. Littlefield, first; Boyland, second; Big match race—G. Nelson, first; K. Johnson, second; Glocker, third.

The next stock car race at the speedway will be held at 8:30 o'clock this evening.

## Flanagan, de Fazio Will Fight Tonight

Cleveland *P.* — Welterweights Del Flanagan and Johnny de Fazio match mitts for the third time tonight in a 10-round bout calling for close officiating.

The first time they met officials in New York called it a draw. Flanagan won the second bout on a disputed decision at Minneapolis—right next to his home town, St. Paul.

De Fazio, from Bayonne, N. J., says Flanagan has not come close to beating him.

The bout will be televised across the nation, but probably not in Cleveland. Station WXEL here said it would show the fight only if the Cleveland Indians-Detroit Tigers game is rained out. The weatherman says there is not much chance of that.

## DAVIS AND LUNDAHL IN THE SEMI-FINALS

Chuck Davis and Elmer Lundahl advanced into the semi-finals of the Conewango Valley Country Club's championship tourney over the weekend and will now be playing off with Dick Krapfel and Tim Creal, defending champ, who advanced earlier last week.

In the weekend play Lundahl downed Pete Juliano, 2-1, and Davis defeated Larry Amy, 3-2. Krapfel reached the semi-finals with a 3-1 victory over Stan Korb and Creal with a 4-3 count over Hank Fisher, Jr. Heading for the finals the slate places Lundahl against Creal and Krapfel with Davis, the latter pair to play on Saturday.

## WESTPORT LANDING

By Homer Hatten

Chapter 12  
"SALLY DUPRE!" he exclaimed. "I had no idea I'd be lucky enough to find such a charming acquaintance on board."

"Why, no," she said pleasantly. "I'm sure you didn't. In fact, it might be just a little embarrassing, mightn't it—Mr. Bennett?"

His arm fell to his side and he lifted his shoulders in a briefly sketched gesture of resignation. "You heard the—the commotion, then?" he asked.

She nodded slowly. "I heard it all," she agreed. "You see, I was to meet Blaine Shepley on this boat tonight." She paused and added, almost negligently, "It was quite impossible to me."

Clay stared at her aware, that his fate was completely and absolutely in her hands.

She studied him for an instant. Then suddenly she smiled.

"Your secret is quite safe with me, Mr. Bennett," she said softly. "I think perhaps we will find it possible to help each other, and I certainly would not want anything to happen to you—at least, as long as that possibility exists. Besides, I think this you owe me something. In addition to depriving me of Mr. Shepley's services, you nearly killed me today, you know."

Clay stared at her blankly. Then, as his eyes took in the soft curves of her figure and her dark, shining hair, his mind was filled suddenly with the scene at the corner of Front and Fourth Streets that morning.

"Good Lord!" he exclaimed. "Was that you? I had no idea! I couldn't see your face, you know. I'm most terribly sorry. But are you all right? Were you hurt?"

"No, I'm quite all right, thank you," she said crisply. "I was terribly frightened, of course, but not hurt. But really, Mr. Bennett," she said smiling sweetly, "you ought to be more careful with your horses—and your sword. Otherwise, we might not be able to help each other, after all. And that would be most unfortunate."

Still smiling, she turned and vanished into the saloon as Clay stood, speechless and hat in hand, staring after her.

Chapter 13  
CLAY accepted Bingham's offer gracefully and gratefully.

"That's amazingly fine of you, sir," he said pleasantly, "and if I do decide to take a shot at it, I'll certainly take full advantage of your kindness. Right at the moment, though," he smiled ruefully, "I need help of another kind. All of my luggage was stolen in St. Louis and I'm sadly in need of a change of clothes. Would there be any merchant on board with a stock of goods who'd sell me a shirt or two and maybe some pants and boots?"

Bingham burst forth in a roar of laughter. "Never fear," he roared. "I'd stumble across some business if I was cast away on a rock in the middle of the Atlantic! Why, Mr. Bennett, I've got bales and boxes and barrels of gear stowed on the lower deck and I can fix you up with just what you need. Not, I admitted, that it will be the kind of clothes you're wearin' now. There's little call for 'em on the border and I don't stock 'em. But I can fix you up with wool shirts and worsted pants and boots heavy enough to kick a bull over a barn. That's what you'll be needin' when you get to Westport—especially if you go into the Santa Fe trade."

An hour later the silk-shirted, dark-coated Kentucky horseman had been transformed into a typical frontiersman. His hat was a heavy black felt with a wide brim and a low circular crown. His rough wool shirt was the fieriest red of the border, and his dark worsted trousers were tucked into high leather boots that were as Bingham had promised, heavy enough to kick a bull over a barn. Even the bloodstained sword cane had vanished, to be replaced by a holstered pistol that hung low on his right hip and rubbed against his leg as he walked.

His tour of the boat with Bingham had been a reasonably certain that there was no one aboard he had ever seen before, with the exception of Sally Dupre, A. for Sally, he was under

no misapprehension as to the very real and definite danger that charming young lady represented. The sooner he came to an understanding with her, the better it would be.

The afterdeck was crowded with cabin passengers basking in the thin May sunlight. Sally, dressed in black silk and lace, was responding pleasantly yet soberly to the half-dozen men who had gathered about her at the rail. She looked up at Clay, her lips curving into a faint ghost of a smile as he approached.

"Good afternoon, Mr. Bennett," there had been the briefest possible smile before she pronounced his assumed name. "It was good to you to come looking for me."

Clay bowed stiffly, aware that she was mocking him and finding it an experience that roveled his soul.

"The pleasure is mine," he said coldly. "Would it be convenient for you now to discuss the matters you mentioned yesterday?"

She made a little grimace of distaste, but moved away from the railing, pausing to smile at the circle of men about her.

"If you will excuse me, gentlemen," she said. "Mr. Bennett and I have a matter of business that I fear we must not delay."

"We'll go out on the foredeck," Clay suggested. "It's usually deserted."

The foredeck, as he had foreseen, was completely empty of passengers. Benches had been built along the rail that encircled the deck, and Sally seated herself at the extreme bow of the boat and motioned Clay to sit beside her. He was still angry and sat down without speaking, waiting for her to explain her actions of the night before.

WHEN he turned to look at her he saw that the demureness she had worn like a cloak on the afterdeck had fallen away, and she was smiling at him with eyes filled with mockery and amusement.

"You're quite displeased with me, aren't you?" she asked lightly. "I've seen situations I liked better," he admitted. "How does

it happen you're traveling up the Missouri alone—without André?"

"André is dead," she said slowly. "He died only a few hours before I left Memphis on this boat."

She saw Clay's eyes widen in astonishment.

"A few hours before you left? Surely, there must have been unusual circumstances. . . ."

She nodded slowly. "There were," she assured him. "Very unusual circumstances."

She hesitated, considering the man before her, deciding how best to fit him into her half-formed plans.

"I think I'd better tell you a story. It won't take long; and it will—it will explain a lot of things."

Quietly, almost impersonally, she told Clay about Regan and about Meisendorf. Briefly, reconstructing the actual events from the meager facts she knew, she sketched in the fight in the attic of the house in Memphis and the flaming torch that house had become as it swept both Regan and André into eternity.

"I caught the Natchez at Memphis that night," she continued slowly. "I was dazed by what had happened, but I had the map, and what was there left for me in Memphis? I thought I would meet Blaine Shepley in St. Louis last night in André's place, and we would start out some way to carry out what she had planned."

She paused, studying Clay thoughtfully. "And then," she said, "you suddenly appear on board under an assumed name, and just as we're pulling away from the levee I find that you've just murdered Blaine Shepley!"

Clay stood and faced her. "Just where do you think I come into the picture?" he asked.

"Why, Mr. Bennett," she protested. "Don't tell me you don't understand that! Don't tell me you don't know why I said I'd say nothing about your name being Blaine Shepley?"

"Why, Mr. Bennett?" she asked. "You're quite as quietly as though she were inviting him to escort her to her carriage. 'You're going to take Blaine Shepley's place and bring me back that gold!'"

THE PURPOSE OF THE BRITISH SOCIALIST GOVERNMENT IS  
**TO PLAN THE LIVES OF THE PEOPLE**

- BY TAXING THE EARNINGS OF THE PEOPLE
- BY OWNING AND OPERATING THE MAJOR INDUSTRIES
- BY WIDESPREAD CONTROLS OVER THE BRITISH ECONOMY

THE PURPOSE OF OUR AMERICAN GOVERNMENT WAS TO  
**ALLOW EACH INDIVIDUAL TO PLAN HIS OWN LIFE**  
- WITH THE LEAST POSSIBLE INTERFERENCE FROM GOVERNMENT

**BUT LOOK AT THESE FACTS!**

### TAXES

IN 1950, TOTAL TAXES IN SOCIALIST  
BRITAIN AVERAGED **\$181**  
FOR EVERY MAN, WOMAN AND CHILD  
IN 1950, TOTAL TAXES IN AMERICA  
AVERAGED **\$261**  
FOR EVERY MAN, WOMAN AND CHILD

### GOVERNMENT OWNERSHIP

OUR GOVERNMENT OWNS OR IS FINANCIALLY  
INVOLVED IN OVER 100 IMPORTANT  
BUSINESS ENTERPRISES  
THE TOTAL INVESTMENT IS FAR  
GREATER THAN THE VALUE OF ALL THE  
INDUSTRIES WHICH HAVE BEEN NATIONALIZED  
BY SOCIALIST BRITAIN!

### GOVERNMENT CONTROL

THE ONE-TIME HEAD OF THE  
COMMUNIST PARTY IN AMERICA HAS SAID  
THAT THE ACTUAL CONCENTRATION  
OF GOVERNMENT POWER OVER  
THE NATIONAL ECONOMY IS PROBABLY  
**GREATER IN THE UNITED STATES  
THAN IN SOCIALIST BRITAIN!**

### WHY DID ALL THIS HAPPEN IN AMERICA?

IN A RECENT SURVEY,  
2 OUT OF 3 AMERICANS UNKNOWINGLY  
BELIEVED IN THE PRINCIPLES OF SOCIALISM!  
THEY DID NOT UNDERSTAND  
OR INSIST ON A MORAL PURPOSE  
FOR OUR GOVERNMENT!

LIFE, LIBERTY, PROPERTY — these three gifts of God  
preceded all man-made laws and are superior  
to them.

So every individual has a right to protect these  
gifts against interference from any source whatso-  
ever. If government is to have a moral purpose,  
it must protect these individual God-given rights  
for every person.

Therefore, the purpose of our government must be—  
"TO MAKE AND ENFORCE LAWS WHICH

PROTECT EVERY INDIVIDUAL'S GOD-  
GIVEN LIFE, LIBERTY AND PROPERTY  
FROM THE INTERFERENCE OF ANY OTHER  
INDIVIDUAL OR GROUP — AND THESE  
LAWS MUST ALSO PROTECT THE PEOPLE  
FROM GOVERNMENT ITSELF."

Since an individual cannot lawfully interfere with  
the Life, Liberty or Property of another individual,—  
then a moral government cannot lawfully interfere  
with the God-given Life, Liberty or Property of  
individuals or groups.

Copyright 1951, F. W. Overesch

### GUIDE TO FREEDOM

JUDGE ALL LAWS BY ASKING THIS QUESTION:  
"DOES THIS LAW PROTECT EVERY INDIVIDUAL  
IN HIS GOD-GIVEN RIGHT TO LIFE, LIBERTY  
AND PROPERTY FROM THE INTERFERENCE  
OF ANY OTHER INDIVIDUAL OR FROM  
GOVERNMENT ITSELF?"
